Memo: Hay River Public Health incorporates COVID-19 Vaccines into Regular Programming

Effective immediately, COVID-19 vaccines will now be offered through the Hay River Public Health Office at the Náydı Kúę Building located at 13 Lepine Drive. This change in service is in an effort to transition back to regular HRHSSA programming as the GNWT takes a step-by-step approach to ending the current Public Health Emergency.

Vaccines will continue to be offered on a regular basis to meet community demand. The next scheduled clinic is Friday, March 25th. **For further information or to book an appointment, please continue to call Public Health at 874-8400.**

Receiving the vaccine helps prevent or reduce the risk of severe COVID-19 disease, both for the person immunized and for others. Even if you are not at high risk of severe disease from COVID-19, it is important to think of your friends, family and other community members you can help protect. It is much safer to get the vaccine than to get the disease.

Stay well, stay safe and let's all do our part to protect our community!

Thank you.
